

Formulated For The Professionals

VT-236 V-Bond

Construction Adhesive Sealant

VT-236 V-Bond is a high performance construction adhesive sealant specially formulated to bond non-porous substrates, such as Aluminum Composite Panel (ACP) and metal panel. It is also suitable to bond a variety of other common construction materials. It has strong initial grab, superior adhesion, and will not slump on vertical surfaces.

Application:

Suitable for Aluminum Composite Panel (ACP) and metal panel installations. Ideal for bonding wood, particle board, metal, concrete, fiber-reinforced cement board, ceramics, bricks, flooring panels.

Available colour: Brown

Features

- Excellent adhesion for all metal substrates including Aluminium Composite Panel (ACP)
- Strong initial grab
- Bonds most materials
